---

## **What Information Do We Collect?**

We only collect the email, first name, and last name of users.

---

## **How Do We Use the Information?**

We use the information to login/create users using Google Oauth2. The email, first name, and last name are used to identify the user in directory application for the Aggie Men's Alliance organization at Texas A&M University.

---

## **What Information Do We Share?**

No information is shared outside of the application. Inside the application, the email, first name, and last name is provided when looking up someone in the directory.
